

SALEH GOIED

Backend Engineer | Laravel Developer

Alexandria, Egypt | +201558125032 | salehgoied@gmail.com

[Portfolio](#) | [GitHub](#) | [LinkedIn](#)

Software Engineer / Laravel Developer with **4+ years** of experience building scalable backend systems, RESTful APIs, and business platforms (ERP/CRM). Proficient in **PHP, Laravel, Filament, MySQL, and React**. Specialized in role-based access control, third-party integrations, and deploying production applications.

EXPERIENCE

LARAVEL DEVELOPER, [MACHINFY](#) (APRIL 2024 - PRESENT) PART TIME

- Built and shipped Machinfy, a production bilingual e-learning platform (Laravel + React) featuring course delivery, payment gateways, automated exam/certificate generation, and mobile REST APIs.
- Architected an internal ERP/CRM system using Spatie Permissions, defining dynamic RBAC workflows for accountants, sales, admins, and executives.
- Optimized and refactored legacy codebases to modern PHP/Laravel standards, significantly enhancing application stability and response times.
- Developed modular backend services and reusable code libraries, reducing time-to-market for new features.

PHP LARAVEL DEVELOPER, [LOGIC DESIGN COMPANY](#) (MAY 2022 - PRESENT)

- Led backend development for high-traffic client applications—including [Mongizz](#), [Doctor](#), [Caffitaly](#), and [Medineeds](#), [Arab Contractors](#) —ensuring high availability and performance.
- Developed and customized 15+ production admin dashboards using Blade and FilamentPHP, streamlining operations and content management for enterprise clients.
- Collaborated with cross-functional teams to translate complex business requirements into RESTful APIs and robust database schemas.

FREELANCE WEB DEVELOPER

- Managed and completed multiple freelance web development projects, collaborating directly with clients to define project scopes, requirements, and deliverables.
- Developed custom web applications, resulting in tailored solutions for client needs.

FULL-STACK DEVELOPER, [UDACITY](#) (MAY 2021 - OCT 2021)

- DEVELOPED WEB APPLICATION PROJECTS USING HTML, CSS, JAVASCRIPT, PYTHON, AND FLASK FRAMEWORK.
- BUILT 5 PROJECTS, LEARNING ABOUT HTTP, APIS, CORS, AND POSTGRES. ([SELECTED PROJECTS](#)).

EDUCATION

B.S. IN COMPUTER SCIENCE AND PURE MATHEMATICS, FACULTY OF SCIENCE, AL-AZHAR UNIVERSITY (MAY 2021)

- Relevant coursework: Discrete mathematics, Cryptography, Graph theory, Introduction to Computer Science, Object-Oriented Programming (OOP), Data Structures, Algorithms, Computer Architecture, Database Systems, Operating Systems, Artificial Intelligence, System Analysis & Design.

SKILLS

- **Backend:** PHP, Laravel, RESTful APIs, FilamentPHP, Spatie Permissions, MySQL, Database Design.
- **Frontend & Web:** JavaScript (ES6+), React.js, HTML5/CSS3, Bootstrap, Blade, RTL/Arabic UI.
- **Tools & Practices:** Git/GitHub, cPanel, Postman, Cursor (AI Tools), Agile, Object-Oriented Programming (OOP).
